CIRCULAR

Sub: Registration for "**Research Methodology**" Course via NPTEL MOOC in I Semester, M.Tech & MCA programs of 2024 Admission students.

This is to inform all the I semester MTech and MCA students of the 2024 admission batch that there is one course in the **II semester PG Programs entitled "Research Methodology (MIM426T)"** which needs to be taken through NPTEL's MOOC platform.

Instead of registering for this course during the **July-August 2025 cycle**, all PG students have been advised to register for this MOOC course in the I semester itself since the portal is open for the **January 2025 cycle**.

With this, students can complete this course "Research Methodology" well in advance without any hurdles. Full details about the course registration link and the schedule of NPTEL are attached herewith for information and immediate action.
